PRODUCTS

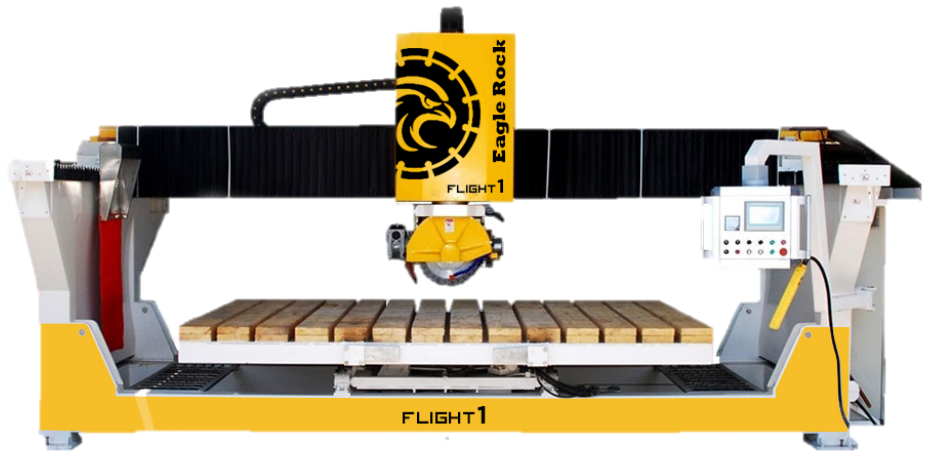

FLIGHT 1

The Eagle Rock Flight1 Bridge Saw is a mono bridge saw with a Siemens PLC Controller. It offers interpolated axes, rotating head, and a fully tilting/rotating bed. It is programmable and designed to cut granite, marble, and other natural and engineered stones. Full warranty provided and convenient financing available.

Eagle Rock Flight1

Specifications:

- 0 – 90 degree head tilting
- 0 – 90 degree head rotation
- 0 – 85 degree table tilting
- 0 – 360 degree table rotation
- Linear guideway in "X, Y, Z" axis to guarantee accuracy and speed.
- All electrical components are designed and sourced with international standards providing parts and maintenance ease.
- Machine is shipped assembled to your location. Set-up amounts to leveling the base and minimal assembly – included with purchase.
- Monobloc structural frame is perfect for easy installation and accuracy of cuts.
- Siemens PLC control provided in four different languages.

Technical Data:

Metric

U.S.

Blade stroke:	142"	3600mm
Blade vertical stroke:	10.2"	260mm
Blade diameter	16"	400mm
Cutting depth	7.1"	180mm
Blade holder shaft diam.	1.97	50mm
Dimensions of table	126" - 78"	3200x2000
Power of blade motor	20 hp	15 KW
Adjustable cut speed	0 – 12	0 – 12
Machine weight	13,228 LBS	6000 KG
Machine dimensions	W: 220.5"	5600mm
	D: 130"	3304mm
	H: 119.2"	3028mm
